## Personal Profile:

I am a graphics professional who has spent more than a decade exercising a passion for exploring complex concepts and processes and illuminating them via new media. This breadth of experience has granted me a keen eye for how seemingly disparate concepts can connect into a coherent whole. And it has earned me a reputation for quality craftsmanship and innovative design. I endeavor to bring this demonstrated creativity, versatility and initiative to bear in providing creative solutions to meet the biggest demands, even within budgets to satisfy the smallest, independent producers.

## Experience:

Estimates and bidding, Project management. Client and vendor liaison.  
Brainstorming, concepting and storyboarding.

3D modeling, animation, lighting, texturing and rendering:

- Medical illustration
- Technical animation
- Character animation
- Special effects
- Architectural modeling and rendering
- Product and packaging rendering
- Exhibit space concept and design

Promotional, advertising and training graphics for video, interactive and print.

Design for educational media, e-learning, professional development, on-line training.

Courtroom graphics and visualization.

Branding, logo design and animation.

Drawing, painting, sewing, woodwork, ceramics and various other physical media.

## Employment:

**Syneos Health Communications, Inc., Columbus, Ohio**

**2012 - Present: Flex Designer/Animator**

- Developing accurate 3D models of medical devices from product tear-downs, photos and/or sketches - extrapolating complex functionality from (often) limited reference material and distilling broad pools of data to illustrate key concepts.
- Maintaining compliance with FDA and other regulatory guidelines for medical and pharmaceutical marketing as well as client, corporate and inter-agency restrictions.

**Computer Graphics Consulting**

**2001 - Present: Designer/Animator/Director**

- Strategic problem solving and support for a wide variety of projects and clients.
- Workflow optimization for multiple concurrent projects and numerous fast-turnover, short-notice projects to consistently deliver on-time and on-budget.
- Working proactively in development of concepts and methods of production to anticipate future client needs.

**Horizons Video and Film, Inc., Columbus, Ohio**

**1996 - 2001: Designer/Animator**

- Produced and directed art for animation and 3D modeling projects
- Directed copy, sound effect, voice, and music production for animation projects.
- Designed and constructed physical props and stage settings for video shoots.
- Designed, fabricated and operated puppet character for live video shoot.

**Blak Boxx Computer Graphics, Inc., Columbus, Ohio**

**1992 - 1996: Designer/Animator**

- Disassembly and documentation of functions of consumer appliances and devices for technical training and sales animations
- Research of biological functions and MOA for environmental, agricultural and medical animations.

## Education:

**1989 - 1992: The Ohio State University, Columbus, Ohio**

The Advanced Computing Center for the Arts and Design (ACCAD)  
Masters Program, Art Education; Computer Graphics and Animation

**1983 - 1988: Loyola U. of Chicago - B.A., Fine Arts, Communication Design**

## Software:

- 3D modeling and animation: Lightwave 3D, Cinema 4D
- 2D design and layout: Adobe Photoshop, Illustrator, InDesign and various others
